

RELAÇÃO DE RESUMOS APROVADOS

Nº Pôster	Autor	Título do Trabalho
301	Ágata Carolyne de Castro Domingos	Mini-examination of mental state as an instrument of cognitive assessment in the elderly: an integrative review
123	Aluísio Antônio Reis Placidino	Isolation of natural diterpenes for the production of semisynthetic derivatives and future biological evaluations
223	Amanda Cristina de Oliveira	Characteristics of mothers being monitored at the premature universe® center
409	Amanda Cristina de Souza Morais	Education for diversity in school practices: the textbook and its activities
116	Ana Flávia Alves Pinto Cunha	Effect of aging on degradation of microplastic by uv irradiation and interactions with organic pollutants in aqueous solution
115	Ana Júlia Garcia de Oliveira Moncef	Awareness of population about chagas' diseases: development of an educational leaflet
106	Ana Lívia de Oliveira Andrade	Turning mechanically interlocked molecules to simultaneously recognize anions and cations: a computational study
022	Ana Luiza Ferreira de Souza	Photographs of chrysopidae using a stereoscope with high resolution camera for specimen identification
124	Analiz da Silva Machado	Production of semi-synthetic derivatives of natural diterpenes in the search for compounds with antiparasitic and anticancer activities
313	Andresa Videira Botton	Investigation of serological diagnosis by micrnas in epilepsy
101	Angélica Cristina Coelho Britto	In vitro evaluation of the leishmanicidal activity of crude extracts obtained from aspidosperma parvifolium
010	Anna Beatriz dos Santos Cassanta	Poems and drawings for conservation: 'embrace these animals' in brazil
018	Antonio Augusto Borges Sales	Influence of copaiba oil on the physical and chemical properties of type i collagen hydrogel for medical applications
217	Ariane Valadares Canuto	Adaptive global motor domain in preterm children: follow-up via premature universe® center
411	Artur Luiz da Silva	The construction of the female actor and the gender and racial violence in a short story by conceição evaristo
315	Bianca Beatriz Soares dos Reis	Evaluation of spirituality among medical school professors
111	Bianca Borges de Alencar	Evaluation of the antibacterial activity of physalis angulata extract and fractions
008	Bianca de Souza Cintra	Histological and immunohistochemical evaluation of endometrial proliferation in mares treated with uterine ozone insufflation

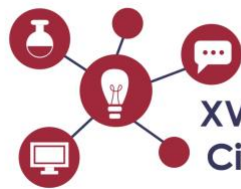

XVI Encontro de Iniciação Científica da UNIFRAN

Nº Pôster	Autor	Título do Trabalho
308	Bruna Aguiar Alves	Geriatric public policies in the municipality of franca state of são paulo
128	Camaro Capanema Alves	Influence of copper nanoparticle concentration on coffee rust severity
307	Caroline Cristina Lourenço Vieira	People with disabilities and inclusive architectural spaces: subsidies for health promotion through a documentary analysis
401	Daniela de Assis Dias Esbroliã	Voice quality as a diagnosis: the case of individuals with cow's milk consumption restrictions
221	Eduardo Junior Rodrigues Pereira	Morning of health - virtual reality in a community center: an experience report
017	Ester Helena Rodarte	Making of a playful game to raise awareness of the correct hygenization of food and hands to control human parasitosis
302	Esther Gondim Silva	Evaluation of the risk of falls in active elderly people in a convenience center
306	Evellyn Rodrigues Silva	Validationoftheapplicationofandetection and recognitionauditoryspeech testwithstandardizedstimulus in children
408	Evelyn Stefani Toniato da Silva	Body and subjectivation in testimonies of transsexual subjects
127	Fausto Etualpe Martins Oliveira	Application of copper nanoparticles for coffee rust control
224	Gabriel Barbosa Monteiro	Histories of fall of the elderly of a living center
015	Gabriela Barbosa Davanço	Analysis of the antimicrobial action of medicinal oils containing cannabinoids
006	Gabriela Cunha Cândido	Agreement in nottingham histological grade system for canine mammary carcinoma: evaluating reliability and reproducibility among evaluators with diverse experience levels
119	Gabriella de Oliveira Magrin	Molecular networking to identify triterpenes in fridericia craterophora
107	Geise Bueno Paiva	Ent-kaurenoic acid: evaluation of in vitro antimicrobial activity against cariogenic bacteria
405	Giovana Pereira Gobbo	Voice quality as a diagnosis: the case of individuals with cow's milk consumption restrictions
005	Giovana Stefani Correa	Avifauna inventory in vale do céu recanto ecológico: a valuable resource for birdwatching and tourism in the serra da canastra national park region
303	Gustavo Barbosa Carvalho	Mental health community groups: operative groups, protagonism and valuing life
016	Hellen Cristina Damas	Cardiovascular, hemodynamic and serum biochemical evaluation in police dogs undergoing nose and physical endurance training

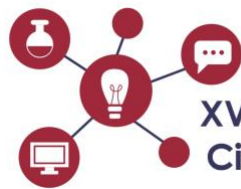

XVI Encontro de Iniciação Científica da UNIFRAN

Nº Pôster	Autor	Título do Trabalho
132	Heloísa Garcia	Cuspidaria spectrum: preliminar phytochemistry study
112	Hugo Fernando Meira dos Santos	Synthesis and characterization of hybrid microspheres kaolinite/chitosan/polyvinyl alcohol and applications in removal of emerging contaminants
310	Iago Rodrigues de Oliveira	Health promotion actions in a day center for the elderly: experience report
304	Isabela Gontijo De Oliveira	The impact of the covid-19 pandemic on cancer screening tests in brazil: a comparative study of breast, prostate, and cervical cancers
215	Isabela Tofolo	Adaptive fine motor domain in children born preterm: follow-up via the premature® universe center
021	Isabelly Domenegueti Tondin	Capture and identification of phlebotomines (diptera: psychodidae) in the winter period of 2022 in the itambé cave, altinópolis, são paulo, brazil
208	Jacqueline Kerolen Da Silva Dourado	Effect of chlorhexidine on biofilms of candida parapsilosi
104	Jaqueline Dutra Oliveira	In vitro evaluation of the antimicrobial activity of crude brown propolis extract against cariogenic bacteria
002	Jhenice Palmeira Gallina	Effect of polyhexamethylene guanidine hydrochloride as a mouthwash: anatomopathological analysis of the digestive system
012	João Marcos Acácio	Potential bactericidal action of ozone gas and lasertherapy against the oral microbiota of captive big cats
013	João Marcos Acácio	Investigation of the antimicrobial action of photo-ozone therapy against gram-positive bacteria staphylococcus aureu
210	João Paulo Aguiar Albano	Relationship between body mass index and speed in the 3200m test among amateur runners
203	João Pedro Beretta Bueno	Digital technologies as a tool for social inclusion
019	Jonas Mendes Rodrigues Souza	Attraction to herbivore-induced volatiles determine coffee pest selection by chrysoperla externa
214	Júlia de Paula Colleti	Gender differences in bullying perpetration and victimization among students: a literature integrative review
117	Júlia Gabriela Matos Vargas	Influence of polyether nature on the drug release behavior of polyurea matrix
007	Júlia Lara Nogueira	Preimaginal development of the predator chrysoperla externa (neuroptera: chrysopidae) on sugarcane borer, diatraea saccharalis (lepidoptera: crambidae)
020	Kamila Gabrielly Ribeiro Alves	Selectivity of synthetic chemical insecticides used on coffee crop on the predator chrysoperla externa
222	Kauan César Souza Campo	Mental health of elderly residents in a city in São Paulo

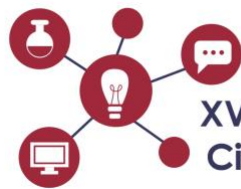

XVI Encontro de Iniciação Científica da UNIFRAN

Nº Pôster	Autor	Título do Trabalho
403	Lais Lazarini Martins	Fake news and disinformation on social media: the case of reporter patricia campos mello
121	Lavínia Cabral Lima	Fungal transformation of diterpenes obtained from araucaria sp brazilian brown propolis
213	Lincoln Roberto Alves Baião	Intersectorality in the school health program: an integrative literature review
212	Lívia Gabriela Garcia Oliveira	Associations between bullying, cyberbullying, and depression during adolescence: an integrative literature review
402	Lorena Cristina Castanheiro da Silva	Online violence against women journalists: an analysis of a unesco study in the light of bakhtinian thought
205	Luana Beatriz Vaz Ribeiro	Telemedicine is a digital technology in social inclusion
009	Luis Felipe Lamarca Ribeiro	Potential of microemulsified green propolis on thermal nociception in arthritic animals
412	Luiz Eduardo Izaías Tomaz	The construction of female identity in avon commercials. A semiotic analysis
134	Luiza Guedes Santos	Evaluation of the anti-melanoma activity of a ruthenium complex in rodents
216	Manuela Sanches Mandel	Estimation of the association between prevalence of hepatitis "E" and indicators of access to drinking water and sanitation
110	Marcos Damasceno Metidieri	Titanosilicates obtained by the sol-gel process applied in the remediation of effluents containing organic pollutants
102	Maria Eduarda de Souza Cardoso	Evaluation of the antimicrobial activity of abietic acid, one of the major compounds of the crude extract of brown propolis
105	Maria Eduarda Fontes Miranda	Comparative analysis of cell death induced by standardized red propolis extract in mda-mb-231 and mcf-10a cell lines
206	Maria Eduarda Pereira Colanigo	Investigating body image perception in patients during the preoperative process of bariatric surgery
011	Maria Eduarda Silva	Potential of microemulsified green propolis on paw edeme in arthritic animals
309	Maria Fernanda Maia Barbosa	Studies of artificial shading in order to propose an efficient device
404	Maria Julia Barbosa Oliveira	Language acquisition and development in children aged 0 to 2 years: dialogues between bodily, verbal, and non-verbal language
131	Maria Luísa Gonçalves Aró	Bioindicators used in the detection of organic and inorganic pollutants
410	Maria Luiza Lombardi	Reading in high school: discursive analysis of teaching practices

XVI Encontro de Iniciação Científica da UNIFRAN

Nº Pôster	Autor	Título do Trabalho
133	Maria Paula Moreira Tahan	Medicinal plants manual
130	Marília Vitória Franco da Silva	Evaluation of the genotoxic and chemopreventive potential of a standardized red propolis extract
114	Matheus Henrique Marques Zago	Evaluation of the combination of the an extract of brazilian red propolis rich in benzophenones compounds with praziquantel in the murine model of schistosomiasis mansoni
406	Melissa Nogueira Muniz	The power in your hands: the construction of the ethos of deaf people in movie parody
218	Michaela Paula Conceição Galdiano	Realistic simulation-based training for basic life support as a highquality continuing education strategy
113	Mônica Garcia Leal Rodrigues	Assessment of cytotoxic activity of a ruthenium complex in melanoma cells
207	Mylena Cristina Ribeiro de Lima	Being heard: one of the biggest difficulties in a woman's life
209	Naiara Cristina da Silva Boaretto	Screening of human papiloma virus and micronucleus frequency in the oral cavity of a young population
125	Naomi Nalini de Melo Taveira	Assessment of the genotoxicity of tac48a and tac51b guanidines in the cho-k1 cell line
311	Paola Sabrina Marcondes	The work conditions and illnesses of social workers in suas
118	Paulo César Alves Felix	Evaluation of red propolis extract and related compounds against leishmania (leishmania) amazonensis
120	Rafael Rodrigues Amorim	Preparation of a tithonia diversifolia extract for application as feed deterrent against leucoptera coffeella ("bicho mineiro" / "coffee leaf miner")
219	Raissa Estefany De Souza	Informative primer on the new classification of foods for patients with eating disorders
220	Rosimere de Paula Cosmo	Virtual reality and the elderly: an experience report on a 'morning of health' with older adults and their families
312	Sara Andrade Souza	Violence against black women: struggles and resistance
314	Sophia Medeiros Rego	Aspects regarding late adoption in brazil
108	Stéfane D Júlia Peixoto	Cytotoxicity of amtac-22, a synthetic spiro-acridine compound, in melanoma and breast cancer cell lines
122	Tailaine Pereira da Silva	Isolation and structural modification of kaurenoic acid aiming to assess the antiparasitary potential of the prepared derivatives
202	Talisson Roberto Bergamim	Infractional acts in brazil: vulnerabilities and social unprotection

XVI Encontro de Iniciação Científica da UNIFRAN

Nº Pôster	Autor	Título do Trabalho
204	Tamires Mota de Oliveira	The price of workers' protagonism health, in the pandemic
004	Tayná Santos	Exploring chromatin remodeling pathways in cyclophosphamide-induced renal nephrotoxicity: insights from rat model
003	Thaissa Oliveira Faleiros	Comparison between the cervical vertebrae of man and of the domestic animals
014	Thaylla Maria Ferreira	Modulating effect of nano-particulate red propolis on thermal sensitivity
211	Tobias Feliciano Gomes da Silva	Aging in the world and in brazil
126	Uriel Rodrigues Landaeta	Investigation of the molecular pathways involved in the antimelanoma activity of the ruthenium complex with 2-mercaptothiazoline ligand
001	Victória Marques Russo Ramos	In vivo safety analysis of synthetic polymer polyhexamethylene guanidine hydrochloride for use as mouthwash
129	Vinícius Fernandes de Lima	Preparation of sepiolite-tio2 nanocomposites for caffeine and ibuprofen adsorption and photodegradation
201	Vitor de Paula Castro	Effect of sanitizers on biofilms of c. Parapsilosis and s. Aureu
305	Vítor Teixeira Marcos de Souza	Preserve historical heritage to the detriment of urban development
103	Vitória de Paula Silva	Evaluation of the in vitro antimicrobial activity of guaco fluid extract against cariogenic bacteria
407	Vitória de Souza Guimarães	Literature in basic education: the construction of the character in dialogue with afro-brazilian culture
109	Yan Pita Vedovato	Synthesis and characterization of a photocatalytic ceramic coating: enhancing photocatalytic properties for sustainable applications
